

Telescopic Sliding Missing Data

Multi-panel sliding gate with overlap sequencing

Focus: panel count, overlap order, and open/closed stack states

#	Missing data	Expected answer type	Topic
1	How many panels does the gate have?	Exact value	Panel count
2	What is the overlap order between panels?	Exact rule	Motion sequencing
3	What is the closed position stack?	Exact value / rule	Closed state
4	What is the open position stack?	Exact value / rule	Open state
5	How much of the motion should be visible in 2D?	Exact visibility rule	Preview detail
6	Should each panel be drawn as a separate block in the preview?	Yes/No	Drawing model
7	Should telescopic sliding reuse the same track language as tracked sliding?	Yes/No	Mechanism reuse
8	What is the exact width rule for the family?	Exact value / range	Size semantics

If an answer is uncertain, mark it provisional instead of guessing. Keep responses short and tied to the exact question number.
