

Double Swing Missing Data

Victorian reference baseline and core swing geometry

Focus: double swing drawing, Victorian styling, price bands, and option mapping

#	Missing data	Expected answer type	Topic
1	Does `widthMm` mean clear opening only, or clear opening plus posts/pillars?	Exact value / definition	Size semantics
2	Does `heightMm` mean the rectangular gate body only, or body plus arch?	Exact value / definition	Size semantics
3	Are the published `1800/1900 mm` and `900/1000 mm` bands minimum-to-maximum ranges, or just example presets?	Range vs preset	Size semantics
4	Do the reference photos represent the same catalog size, or are they larger site-specific installs?	Single choice / confirmation	Photo baseline
5	How many horizontal rails should the Victorian double swing have in production?	Exact value	Structure
6	What is the exact tube section for the outer frame?	Exact value	Structure
7	What is the exact picket spacing or center-to-center pitch?	Exact value	Structure
8	What is the exact ground clearance target?	Exact value	Structure
9	Should the center meeting detail be a decorative latch plate, a simple latch, or both?	Single choice	Center hardware
10	Is the drop bolt always present, or only on some installs?	Yes/No + frequency	Center hardware
11	Which visual element is the real product match for the top and bottom circular bands?	Exact mapping	Decoration mapping
12	Which visual element is the real product match for basket twist details?	Exact mapping	Decoration mapping
13	Which visual element is the real product match for the spear row at the middle?	Exact mapping	Decoration mapping
14	Should `bushes` and `spirals` stay as the current approximations, or do they need new product names?	Naming + mapping decision	Decoration catalog
15	Is `top_railheads` supposed to mean a finial on every picket, or a smaller counted set?	Exact count rule	Railheads
16	Is `Traditional Victorian Style` the only style that should show the full Victorian decoration set?	Yes/No	Style rules
17	Should `Composite Boards` reuse the same pricing logic but a different infill drawing?	Yes/No	Style rules / pricing
18	Is `arched_top` always valid for `double_swing`, or only on some widths?	Yes/No + condition	Option rules
19	Are `dog_bars` and `dog_bar_railheads` separate options in production, or only visual labels?	Product decision	Option rules
20	Which single photo should be treated as the baseline reference for the final 2D preview?	Single photo choice	Preview reference
21	Should the final preview match photo 02, 03, or 04 most closely?	Single photo choice	Preview reference

#	Missing data	Expected answer type	Topic
22	Do you want the preview to show brick pillars by default, or only the gate assembly?	Yes/No + default visual	Preview layout

If an answer is uncertain, mark it provisional instead of guessing. Keep responses short and tied to the exact question number.
